	\$4075

Actual Per Pupil Cost: \$7100

There is a *difference of \$2200 per student* for each preschool child enrolled.

There is a *difference of \$2625 per student* between actual cost and tuition for each K-8 first child enrolled.

There is a *difference of \$3025 per student* between actual cost and tuition for each K-8 sibling enrolled.

This difference between what you pay per child and what it actually costs to educate your child is covered through donations and additional fundraisers. It is important, therefore, that all parents help us to publicize our additional fundraisers and volunteer their services at these events. For this reason, we have a parent volunteer requirement of 8 hours. In this way, we will be able to keep tuition affordable.
